## **Surefire Ways to Attain Moneymaking Success**

### **Surefire Ways to Attain Moneymaking Success**

by: **Michael Lee**

You have probably heard other people say that "Money isn't everything" or "Money can't buy happiness." They may be right in some aspects; but it's not just about the money.

It's about having an ideal lifestyle - being able to have control over your time and schedule, having no one ordering you around, not having to look at the price tags every time you go out shopping, and just enjoying the freedom that you truly deserve.

But why do many people fail to achieve financial freedom? Through experience, I have observed that they have limited belief.

That's the problem with most people. They have set up a boundary in their minds. This barrier stops any possibility of surpassing the current limits of their belief.

For example, many people would think that their boring day job is all that they're good enough for. They do not like to think outside the box. They do not grab opportunities that are theirs for the taking. Fears and doubts have been causing them to miss these golden chances of a lifetime.

There are plenty of opportunities out there. They may enroll in night classes, do some research on how to make more money, or start an internet business.

When I was just starting my online endeavors, all my friends and relatives (with the exception of my internet marketing friends, of course) would discourage me in entering this venture. They would repeatedly inform me that I'm wasting my time and nothing good would come out of it.

Had I listened to them, I would not have achieved online success. If they have succeeded in implanting their own restricted beliefs into my mind, I never would have tasted the joy of being an infopreneur.

No offense to them. I respect their decisions. Everyone has the right to voice out their opinions, but no one has the right to force others in accepting their belief. Thank goodness my internet marketing pals have encouraged and supported me all the way.

Believe that you have the capacity and power to attain moneymaking success, and you're halfway there.

Plan everything. Make a list of things that would allow you to save money. Cut back on using your

credit card, pay your bills on time, make wise investment decisions, and try your best to start in some sort of business (no matter how small).

More importantly, action should be taken. It's not enough to just believe. You have to make a move. Does making mistakes frighten you? Don't be. The more mistakes you make, the closer you will get to success.

Sacrifice. Instead of watching TV or going shopping, invest more time on those activities that would propel you in reaching your financial goals.

Many people would repeatedly complain that they're sick and tired of their lives, but do they really deserve a better life? The harder you work, the more chances that success will hit you.

Never, ever give up. Quitting is not an option. You must keep on pounding and pounding until you have achieved your mission.

Money may not be everything, but living your life the way you want it to be is.

## **Why The Surefire G2 Flashlight Is A Great Buy**

**By S. Arya**

The Surefire G2 flashlight is an excellent buy. The G2 is the most cost effective flashlight Surefire manufacturers and provides the same light output as Surefire which cost four times as much.

The Surefire G2 comes in an indestructible Nitrolon body which is basically a reinforced form of plastic. Do not be fooled this light is lightweight, powerful, compact and pack a punch. It puts out sixty lumens which is equivalent to other Surefire lights such as:

- Surefire 6P • Surefire G2Z • Surefire C3

The above mentioned lights are much more expensive then the G2 because of the aircraft aluminum used versus the Nitrolon.

The Surefire 6P puts out a clean, focused, tactical beam that produces four times the average two D Cell flashlights. The Surefire G2 has the capability to temporarily blind an attacker and also has the ability to disorient someone who has adapted their vision to the night. An optional Surefire P61 lamp assembly is available which doubles the run time however the battery life drops 66%. The Surefire G2 is supplied with the standard P60 lamp assembly which provides 60 lumens for 60 minutes, however with optional P61 a searing 120 lumens is produced but the run time is a mere 20 minutes.

The Surefire G2 requires 2 CR123 batteries and comes in four colors:

- Black • Desert Tan • Yellow • Olive Drab Green

The Surefire G2 flashlight features the following:

- Weatherproof body with O Ring Seals • Tail cap switch when pressed is a momentary light however when twisted it is constantly on • Turn the switch two full turns from the on position and the safety is engaged to prevent accidental lighting when being packed or traveled. • Supplied with 2 CR123 Batteries

The Surefire G2 is 4.9 inches long and 4.1 ounces heavy. Optional accessories include:

- SC1 Spares Carrier for carrying bulbs and batteries (spare) • Z33 Lanyard • FM37 Beamcover and Lens protector • V70 Speed holster • V20 Fixed Loop Holster • F28 Traffic Wand

The Surefire G2 as mentioned earlier is the most cost effective light and yet provides the equivalent performance of much more expensive Surefire lights. If you do not want to shell out the big bucks for a Surefire this light is an excellent choice.
